Sanbolic's Software Updates now Available through Microsoft System Center

Microsoft System Center ITCU enables customers to automatically update Sanbolic Software

WATERTOWN, Mass. November 14, 2007 – [Sanbolic, Inc.](http://www.sanbolic.com), a leading developer of software to simplify and share SAN storage, today announced that customers with current support agreements using its Melio FS, LaScala, and Simple Information Lifecycle Manager software can now receive automatic updates through the Microsoft System Center ITCU program.

The Microsoft Inventory Tool for Custom Updates (ITCU) is available to customers using System Center Configuration Manager 2007 and System Center Essentials 2007 with System Center Updates Publisher or Systems Management Server 2003 R2. [Melio FS](#) is a clustered file system that allows multiple servers to have concurrent access to data on a SAN. [LaScala](#) is a clustered volume manager that can centrally manage the logical volume configuration and assignment for physical and virtual servers. [Simple Information Lifecycle Manager](#) (SILM) allows customer to move or copy files based on storage policies.

“Microsoft System Center Configuration Manager 2007 provides IT managers with a single infrastructure for deploying a variety of applications across their environment,” said Eric Berg, director of product management for System Center at Microsoft Corp. “We are pleased to have Sanbolic’s participation in the ITCU program, as it will allow mutual customers the ability to update independent software vendors’ applications, thereby increasing flexibility and lowering operating costs.”

Sanbolic software currently supports Microsoft Windows XP, Windows Vista, Windows 2000 Server, Windows Server 2003 R2 and Windows Server 2008 Beta 3. Sanbolic distributes its product solutions worldwide through a network of distributors, OEMs, VARs and system integrators.

Sanbolic will be exhibiting this solution at the Microsoft System Center Pavilion, Stand Number 3 at Microsoft TechEd IT Forum 2007 - 12-16 November 2007, Barcelona, Spain.

About Sanbolic, Inc.

Sanbolic, Inc is a Watertown, Massachusetts-based company that provides software for simplifying and sharing SAN storage. Sanbolic's product extends the capability of Windows applications by allowing SAN storage to be easily administered, expanded and reassigned, while supporting shared data access to improve application availability and/or application scalability. Further information about Sanbolic can be found on its website www.sanbolic.com.
